

Turner School News

Hello Turner Families and Community,

Welcome to our special edition of the Turner Newsletter. We have some great news to celebrate!

Congratulations to James E, who was awarded 2nd place in the Rostrum quarter-finals. This means that he will progress through to the ACT semi-finals. Thank you to Clive for hosting the event at Turner and to Harry H, Fahim V, Leah M and Zoe K who were fabulous MC's and time keepers.

Well done to our chess teams at yesterday's Central Zone Open Primary School Chess Competition. Two of our teams will progress to the ACT finals as they came first and second! Special congratulations to Shriya K for winning a perfect score during the day. Thanks to Clive for hosting the event on our behalf and to Ted for the set up in the multipurpose room.

Finally congratulations to Ellie A, Mia T, Josh TL, James E, Fahim V and Isaac W who won first place in the PWC Robots in Space interschool competition last night! The team has been working for four months to program their Robot to navigate the unpredictable terrain on Mars. They confidently explained their project to the panel of expert judges. Well done to all of students involved and a special thank you to Georgia and Sam for organising the Turner team!

Thank you to the staff and families who came along to these events to support our students.

This is a fantastic affirmation of all the ways we take our students to the edge of their learning in and beyond the classroom - we are so proud of all our students' achievements!

Kind regards,

Allison Edmonds and **Robyn Watson**
